Rev.	Date	Description
v0.1	2025-06-24	Based on S-series v2 Added 3 circuits: LCD, matrix keypad, and Themperature interface. Removed castelated edge. Added Apollo module. Added development header Added JST connector for battery pack and updated block diagram. Added jumper to disconnect the LCD and keypad driver from the 3.3V power supply Updated memory Flash and added components to "hold" the LDC.
